

System Integration That's In Sync With Your Business

Overview

RJT Compuquest, Inc. is a consulting organization specifically focused on ERP services. Since 1996, we have held an unwavering commitment to furnish cost-effective resources and solutions to our clients. Our extensive experience and an acute understanding of business processes, consulting services, and application outsourcing, have allowed us to consistently meet client objectives and budgetary parameters.

Our goal is to earn your business by providing value at every step of the way. The process starts with precise, timely communication. We listen to you, and quickly assimilate and disseminate information that is essential for your specific requirements. We become a specialized, physical extension of your IT team, extending to you our entire range of Oracle E-Business Suite capabilities. This includes our deep technical and functional expertise, our strong domain knowledge, intelligent resourcing methodology, and most of all, our extensive pool of talented consultants.

We take pride in our personal relationships with our clients, and continually strive to become an integral, supportive part of their business success. With RJT Compuquest, Inc., you are a part of a family that believes in lasting relationships through successes and challenges.

RJT has six locations nationally and one international office in India which supports our offshore services.
